PORTRAITS PRODUCTS LANDSCAPES

IN A FAST PACED ENVIRONMENT PHOTO OPPORTUNITIES ARISE AT THE BLINK OF AN EYE. IT TAKES A WEALTH OF CREATIVITY AND EXPERIENCE TO PREDICT AND CAPTURE THAT MOMENT AND THE BEAUTY IT HOLDS.

My service is creativity.

THE TASSIE LIFE

Tim was raised on the island state of Tasmania, Australia. Being a diverse landscape from pristine, untouched rainforests on the west of the state to aqua blue, squeaky clean sand on the East Coast; this made for the perfect photographers playground for Tim to develop a love for nature and photography.

ABOUT TIM WHYBROW

The pickup

Having a camera in hand throughout his childhood, Tim took the path of creativity from a young age. From his first super VHS JVC video camera in 2002 at the age of 9 his career was destined. Whilst developing a musical and somewhat comical personality on YouTube in its early days, Tim reached millions of viewers worldwide whilst progressing further with his technical photography and cinematography abilities. After studying at the renowned Bond University in Queensland, Australia, Tim now passionately lives by the lens with the casual acoustic 'pub gig' accompanied by poor dad jokes. His outgoing personality and advanced industry knowledge makes him a bundle of joy to work with.

The Tools

Having utilised a variety of cameras on set from traditional broadcast cameras like Sony Betacam's to the first series of Canon's DSLR's, Tim now shoots on the Sony A7 full-frame digital mirrorless series equipped with a variety of lenses and stabilising equipment.
